

# TEMPORARY CONTAINMENT SYSTEM

Oil and Gas • Construction • Manufacturing • Agricultural • Mining

The Enviro-Guard Temporary Containment System is heavy duty, modular, and re-usable for various storage tank applications. Its unique design allows for this system to be the ideal solution for both short-term and long-term containment needs. The features and benefits of the Enviro-Guard Temporary Containment System make it the superior alternative to steel or concrete secondary containment structures.

## Features and Benefits

- Structurally sound
- Lightweight
- Durable
- Drain plugs
- Variety of colors
- Screw-on fill caps and lids
- Compatible with square bolt-on or round screw-in lights
- Easily relocated
- Lower labor costs
- Impact resistant
- Allows for application flexibility
- UV and long-term fade resistant
- Larger barriers accept fencing
- Withstands harsh treatment during installation and relocation
- Ballastable with water or sand
- Pre-molded attachment areas for lights and flags
- Long lasting visual appeal
- Composed of recyclable material
- Deployable by one or two people
- Quick installation and removal
- No heavy equipment needed, but forklift accessible
- Uniform wall thickness with thicker corners and edges
